

As part of its renewed efforts to earn back at least a part of its lost market-share in India, Chinese tech giant, Lenovo, has launched yet another lower-mid-range smartphone in the country after launching three new devices earlier this month. Called the Lenovo K10 Plus, the latest addition to the company's smartphone portfolio in India comes with a number of cool features, including AI-powered camera software. It will go on sale next week exclusively on Flipkart as part of the e-tailer's upcoming Big Billion Days sale.

Lenovo K10 Plus Specifications and Features

The Lenovo K10 Plus features a 6.22-inch HD+ (720×1520) display with a 19:9 aspect ratio. It is powered by the Snapdragon 632 chipset, paired with up to 4GB of RAM and 128GB of internal

storage that can be expanded by up to 2TB via a microSD card. The phone runs Android 9 Pie out-of-the-box with a layer of ZUI on top. It also carries a 4,050mAh battery with support for 10W charging.

Imaging options on the phone include a triple rear-camera setup that consists of a 13MP primary sensor with a five-piece f/2.0 lens, an 8MP secondary sensor with a wide-angle lens and a 5MP tertiary sensor for depth sensing. On the front, there's a 16MP camera with various AI-enabled features including, the obligatory 'Beauty' mode. Connectivity options include 4G LTE, Wi-Fi 802.11ac, Bluetooth v5.0, GPS, A-GPS and USB Type-C port, while sensors include an accelerometer, ambient light, fingerprint and proximity.

Lenovo K10 Plus Price and Availability

The Lenovo K10 Plus has been priced at Rs. 10,999 for the lone 4GB+64GB model. It will be offered in Black as well as Sprite color options. As mentioned already, it will be available exclusively on Flipkart, starting September 30.
